

Central Intelligence Agency  
Washington, D.C. 20505

14 December 1983

Executive Director

NOTE FOR: EA/DDI

FROM: EA/ExDir

In September the PFIAB informed the Agency that it would conduct a study of the Intelligence Community's track record in supporting arms negotiations. Subsequently, the Agency informed the PFIAB that the study would divert substantial Intelligence Community resources away from other tasks if the PFIAB undertook such a project.

Fred Demech now believes that the PFIAB may be willing to limit its work on this project to a review of the kinds of documents prepared by the Intelligence Community. In this regard he has asked for a machine run on intelligence studies related to arms negotiations.
